¹ See last page of document for survey questions asked within each area of General Education.

² In addition to level of agreement with statements, respondents were asked to rate the importance of each GE area.

Respondents were asked to indicate: 1) level of agreement (Strongly Agree -- Strongly Disagree) with the statements, and 2) if these skills are important to their future career or education

Level of Agreement

SA = Strongly Agree, A = Agree, N/A = Not Applicable, D = Disagree, SD = Strongly Disagree

Importance

Y = Yes, and N = No

My classes at USFSP improved my...

Ability to Communicate by:	Q34	a Making appropriate communications choices by focusing on audience and purpose b Applying appropriate form and content in oral, digital, written and visual communication c Applying basic principles of critical thinking, problem solving, and technical proficiency in the development and documentation of oral, digital, written and visual communication
Quantitative Skills by:	Q35	a Applying arithmetic, algebra, geometry, and statistics to solve problems in a wide range of disciplines b Representing and evaluating basic quantitative information numerically, graphically, and symbolically c Using mathematical and logical reasoning to create and evaluate the validity of arguments and solve problems in a wide range of disciplines
Knowledge of Natural Sciences by:	Q36	a Understanding and practicing the scientific method of inquiry b Working with tools and methods used by scientists to study the natural world c Describing how natural science research informs societal issues, including ethics
Knowledge of Social Sciences by:	Q37	a Demonstrating the appropriate methods, technologies and data that social scientists use to investigate the human condition and the nature of social organizations b Understanding the roles by race, age, gender, ethnicity, economic status, environment in influencing human social interaction c Understanding/explaining/interpreting the ethical dimensions of human behaviors and the formation of social, cultural and/or religious values
Knowledge of Historical Perspectives by:	Q38	a Understanding the history of human civilizations, societies and cultures and the human experience b Applying interpretations of human experiences to past and present civilizations through the study of political, social, cultural, environmental, and intellectual issues c Situating primary historical records in their proper contexts and constructing historical arguments based on these contextualized historical records
Knowledge of Fine Arts by:	Q39	a Describing the relationship of the fine arts to everyday life b Explaining social, historical, cultural, intellectual and/or ethical contexts of creative expression c Identifying the techniques and principles appropriate to the study of the fine arts d Identifying the creative process, its traditions and achievements
ALAMEA [Africa, Latin America, the Middle East and Asia] by:	Q40	a Providing an analysis of historical or contemporary social, political, economic environment, and/or cultural life in one of these regions b Identifying the contemporary connections between these regions related to global issues, themes, and/or conflicts
Knowledge of Major Works and Issues by:	Q41	a Examining how culture, environment, race, gender, and/or values and ethics impact research and theories in a particular discipline b Critically analyzing the primary texts and major documents or works (including visual and musical) of a particular discipline
Knowledge of Literature and Writing by:	Q42	a Identifying primary literature and crucial sources in a particular discipline b Organizing and evaluating primary and secondary sources into effective evidence for a cohesive analysis c Writing a well organized analysis of primary and secondary sources in a particular discipline
