## TUITION PAYMENT DEADLINES

If any class in a student's course-load in a given term starts at or before the beginning of the term, then the tuition for the entire course-load is due on the 5th day of the term.

If the entirety of a student's course-load for a given term is alternative calendar AND starts later than the first week of the term, then per-class tuition is due by the 5th day of after each class respectively.

If a student plans to add or drop any course (regardless if it is alternative calendar or not) after the first official week of the term, they must do so via [USFSP Graduate Petition](#). Any course that is dropped after the 5th day of the class session will remain fee liable unless there are documented circumstances outside of the student's control that are forcing them to drop the course (i.e. medical reasons).
